

July 27, 2000

State of Utah Dept of Natural Resources Division of Oil Gas and Mining % Tony Gallegos

Here is my latest attempt at the large mining permit. If you can go over this I would like to have this finalized by Sept 15, 2000.

Thank you.

Tony I will send you this imformation as soon a I have it - Hank

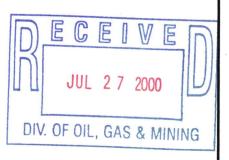

105.1	Duchesne County Exhibit B Map Inclosed.	
105.2	The acreage for the previous crushing and stock piling area is 1.5 acres Surface facilities map inclosed.	
105.3	Cross section inclosed. Reclamation treatment map inclosed. (Same map as surface facilities map). (Same map goes with form MR-EPR).	
106.2	The road no longer exists. Do you still want the grade? The only structures on site are the scale and scale house. (See exhibit E for location).	
106.3	The 4.6 acres + or - in the proposed expansion area have been reclaimed as was discussed with Tony on his last site visit. We will reseed in the fall of 2000 using the division approved mix. We have about 40 hours work with the D-8 Dozer and trackhoe, at a value of \$4,000.00.	
106.4	Soil sample being tested by the Utah State Soil Lab.	
106.6	Top soil was taken off an area of about 2 acres only and transported to lower pit area with scraper and stockpiled. It is possible to have some over burden with this as well.	
107.3	The proposed expansion area was ripped with the dozer ripper so as not to drain down hill.	
109.4	Benches are about 30' wide and run the full length of the pit.
